Re: Ard Property Borrow – M-2017-002

Subj: Inspection Report 20170302 – Technical Revision Delay

Dear Peter:

This letter is a formal request for additional time in responding to the Inspection Report filed on March 2, 2017.

The original corrective action due date of March 20 was not enough time to obtain a notarized agreement with Noble Energy, concerning their wellhead. We had come to an informal agreement, but in order to have the agreement notarized, their legal team wanted to review it and that has caused a delay in the response to the inspection report.

Please allow until next Friday, March 31, to respond to the inspection report. For the time being, we will stay the required 200 feet from the Noble Energy wellhead.

Sincerely,

Kyle Reinholt
Project Manager
