RE: Lyons Quarry; DRMS File No. M-1977-141; Technical Revision No. 2 – Adequacy Review No. 4

Dear Ms. Davis,

The Division has identified several other comments and questions that must be addressed prior to the Division's decision due date. **Please be advised that if you are unable to satisfactorily address any concerns identified in this review before the decision date, it will be your responsibility to request an extension of the review period. If there are outstanding issues that have not been adequately addressed prior to the end of the review period, and no extension has been requested, the Division will deny this Technical Revision.**

#### 6.4.6 Exhibit F – Reclamation Plan Map

1. The Reclamation Plan Map outlines an area of 59.6 acres. The Reclamation Plan Map must be revised to depict the entire area which corresponds with the permit area of 71 acres. Please reference the Reclamation Plan Map which was submitted under Amendment No. 2 for the most recently approved permit boundary configuration.

Please remember the decision date for this Technical Revision is April 28, 2017. As previously mentioned, if you are unable to provide satisfactory responses to any inadequacies prior to this date, it will be your responsibility to request an extension of time to allow for continued review of this Technical Revision. If there are still unresolved issues when the decision date arrives and no extension has been requested, the Technical Revision will be denied.

If you have any questions, please contact me at (303)866-3567 x8116.

Sincerely,

Michael A. Cunningham

CC: Wally Erickson, DRMS
