Mr. David Felderhol 1300 - 1959 Upper Water Street Purdy's Wharf Tower 1 Halifax, Nova Scotia B3J 3N2 Canada

Re: Dawson Gold Project, DRMS NOI File No. P-2013-002; Fourth Notice of Deficiencies and Reclamation Liability Estimate for NOI Modification, Revision No. MD-3

Dear Mr. Felderhol:

On March 15, 2017 the Division of Reclamation, Mining and (Division) received your response to the third notice of deficiencies (NOD) for your Notice of Intent to Conduct Prospecting Operations (NOI) Modification (MD-03). The responses were adequate. However, the Division requires a commitment, in writing, to reclaim the borrow area for the estimated 312 CY of colluvium road cut reclamation material (clayey gravel) to be excavated from the dry wash area near the Fremont Placer. Please provide a written commitment to reclaim the disturbance (expected by the Division to be between 0.06 and 0.2 acres).

Financial Warranty:

The Division's enclosed cost estimate to reclaim the site is based on the application and your responses to the three previous adequacy reviews. The BLM is copied on this letter for the purpose of obtaining concurrence on the reclamation liability. Please review this bond estimate.

Pursuant to Rule 5.1.3(c), the written commitment to reclaim the clayey gravel borrow area must be submitted within 60 days of this notice or the Division may deny the modification application. <u>Please</u> be advised the Dawson Gold Project Prospecting Modification Application may be deemed deficient and the application may be denied on June 9, 2017 (60 days from the date of this letter) unless the abovementioned deficiencies are addressed to the satisfaction of the Division.

Mr. David Felderhol April 10, 2017 Page 2

If you have any questions, please contact me (303-866-3567 ext. 8169).

Sincerely, Open

Timothy A. Cazier, P.E. Environmental Protection Specialist

Enclosure

ec: David Felderhol, Zephyr Gold USA Ltd DRMS file Dr. Angela Bellantoni, EAI Stephanie Carter, BLM
