Re: Eagle-Gypsum Mine, Permit M-1984-041 Notice of Receipt, Technical Revision TR-9

Mr. Bloess:

On April 21, 2017, the Division of Reclamation, Mining and Safety received your Technical Revision application **TR-9** and the required fee for the Eagle-Gypsum Mine Permit **M-1984-041**, which is located in Eagle County. The revision requested addresses the following items:

The purpose of the revision is to incorporate stormwater management structures in to permit area. Also revision is to address the need for the operator to replace the damaged culvert under main road with a larger sized culvert.

The Division is reviewing your revision submittal for adequacy. The decision due date is scheduled for May 24, 2017. We will contact you if additional information is needed.

Sincerely,

Travis Marshall
Environmental Protection Specialist
