RE: Colona Pit, Permit # M-1994-005, Technical Revision (TR-6) Review

Mr. Siegmund:

On April 12, 2017 the Division of Reclamation, Mining and Safety (Division) received your request for a technical revision (TR-6). Before the Division can consider TR-6 for approval please provide the following:

1. Statement that the 24" thickness of backfill material to be placed above the irrigation/groundwater level will be the thickness after settling/compaction.
2. Rangeland seedmix to be used on the Jutten property, including species and pounds live seed per acre seed rate.

If you require additional information, or have questions or concerns, please contact me at the Division's Grand Junction Field Office.

Sincerely,

Dustin Czapla
