Re: Crossfire Bonds Gravel Pit, Permit M-2015-001 Notice of Receipt, Technical Revision TR-1

Mrs. Koenig:

On April 27, 2017, the Division of Reclamation, Mining and Safety received your Technical Revision application **TR-1** and the required fee for the Crossfire Bonds Gravel Pit Permit **M-2015-001**, which is located in La Plata County. The revision requested addresses the following items:

Reduce the max allowed disturbance to One Acre and lower the required Financial Warranty, until such time that La Plata County awards the final Conditional Use Permit.

Preliminary review of the information received determined that the following items must be received before the Division can consider your application;

1. An affidavit, signed by the Operator, clarifying that this is a temporary modification to the mine plan. The affidavit should state that no surface disturbance has on site, commit that no mining activity will until such time as the County CUP is awarded and request that the required Financial Warranty be lowered to the minimum allowed amount for One Acre of disturbed land. Once the CUP is awarded the Operator shall file a subsequent Technical Revision with the Division reverting back to the original Mining Plan and its associated Required Financial Warranty.

Please submit the requested information within **30 Days** of the date of this letter. The information should be received by the Division's Denver Office no later than **June 1, 2017**. If the information is not received the Technical Revision may be denied. Please feel free to contact me if you have any questions, comments or concerns, at the Division's Grand Junction Field Office, by phone at 970-243-6368 or by email at lucas.west@state.co.us.

Sincerely,

Lucas West
