**Re: Daniels Sand Pit 2, Permit No. M-1973-007SG,  
Documentation of Corrective Action(s) Received**

Dear Mr. Laroche:

On May 9, 2017 the Division of Reclamation, Mining and Safety received your response regarding the remaining Problem identified during the December 7, 2016 inspection conducted at the Daniels Sand Pit 2 and cited in the inspection report. The Division has changed the status of the Corrective Action associated with the following cited Problems to be resolved:

- Problem/Possible Violation: *Observed sparse vegetation and erosion rilling on the southwest embankment outer face of the current wash pond reducing the erosional stability of the embankment.*

The Operator submitted photographs showing seed bed preparation, seed tag, and the final surface. Therefore, this Problem is considered resolved.

If you have any questions or need further information, please contact me at (303)866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
