Hello Mr. Padilla,

The corrective action required for the mine identification signs is considered resolved. Thank you.

Regarding the groundwater level monitoring data, the monitoring plan required quarterly water monitoring beginning with the 4th quarter of 2014. The data submitted only indicates the wells were monitored once per year. Is this all of the data that you have?

Thanks,

Jared

Hello Jared, yes Unfortunately that's the information I have for the groundwater monitoring.
[Quoted text hidden]

Henderson Pit Ground water measurements

March 2014	North well	12 feet	Elev. N/A
March 2014	South well	7 feet	Elev. N/A
January 2015	North well	13 feet	Elev. N/A
January2015	South well	7 feet	Elev. N/A
Dec. 2015	North well	12.5 feet	Elev. N/A
Dec.2015	South well	7 feet	Elev. N/A
July 2016	North well	12 feet	Elev. N/A
July 2016	South well	8 feet	Elev. N/A
May 2017	North well	12 feet	Elev.5025.554
May 2017	South well	16 feet	Elev.5045.636

Hello Jared, I found the records of groundwater levels but they were hand written on various sheets of paper so I took the liberty of creating a log where I can consolidate and keep track of from here on out. I also took elevation readings to top of wells and included them in the last measurement for May.
