Good morning Jerry,

The Proposed Decision date associated with RN-4 at the Seneca Yoast Mine has been extended to June 30, 2017.

Please let me know if you have any questions or comments.

Thanks,
Jason

Jason –

We are making good progress on the response package for RN04, but are not done yet. I am currently focused on responses and testimony for our challenge of the Sage Creek CPDES Permit, and will be tied-up this week and next. Given our workload and current priorities, we request that the decision date for the Yoast renewal be extended to June 30th. We appreciate your patience and understanding –

Best regards,

Jerry

Subject: Yoast Mine, C-1994-082, RN-4 Proposed Decision Date

Good morning Jerry,

The Proposed Decision date associated with RN-4 of C-1994-082 (Yoast Mine) is due from the Division on 5/19/2017.

Please provide the Division with an extension request that will allow Peabody Energy with enough time to adequately address the Division's concerns and provide the Division with adequate time to review Peabody Energy's responses and generate a Findings document. Please note that the Reclamation Cost Estimate (RCE) associated with RN-4 has been updated with new costs, as the original RCE was completed in 2015.

Please let me know if you have any questions or comments.

Thanks,

Jason
