DIVISION OF RECLAMATION  
MINING & SAFETY

Please provide a brief description of the proposed revision:  
Revise and update mine plan and map, revised reclamation plan and map. Review and  
submit reclamation bond calculation.

As defined by the Minerals Rules, a Technical Revision (TR) is: "a change in the permit or application which does not have more than a minor effect upon the approved or proposed Reclamation or Environmental Protection Plan." The Division is charged with determining if the revision as submitted meets this definition. If the Division determines that the proposed revision is beyond the scope of a TR, the Division may require the submittal of a permit amendment to make the required or desired changes to the permit.

The request for a TR is not considered "filed for review" until the appropriate fee is received by the Division (as listed below by permit type). Please submit the appropriate fee with your request to expedite the review process. After the TR is submitted with the appropriate fee, the Division will determine if it is approvable within 30 days. If the Division requires additional information to approve a TR, you will be notified of specific deficiencies that will need to be addressed. If at the end of the 30 day review period there are still outstanding deficiencies, the Division must deny the TR unless the permittee requests additional time, in writing, to provide the required information.

There is no pre-defined format for the submittal of a TR; however, it is up to the permittee to provide sufficient information to the Division to approve the TR request, including updated mining and reclamation plan maps that accurately depict the changes proposed in the requested TR.

Required Fees for Technical Revision by Permit Type - Please mark the correct fee and submit it with your request for a Technical Revision.

**Re: Midway Pit, Permit No. M-1988-018 Technical Revision Application TR-2**

Mr. Baxter:

On March 27, 2017, the Division of Reclamation, Mining and Safety received your Technical Revision application **TR-2** for the Midway Pit Permit No. **M-1988-018**, which is located in El Paso County. The revision requested addresses the following items:

*Update the mining and reclamation plans, and the Mine Plan Map and Reclamation Plan Map*

Preliminary review of the information received determined that the following items must be received before the Division can consider your application as being submitted and technical review can begin:

*Technical Revision Fee of \$216*

Please submit the requested fee within 30 days of this letter, or your Technical Revision application may be denied and need to be re-submitted.

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
