

May 30, 2017

Ms. Amy C. Yeldell
Division of Reclamation, Mining & Safety
1313 Sherman Street, Suite 215
Denver, CO 80203

Dear Ms. Yeldell;

RE: Silt Pit - M-1979-202-SG
Corrective action response

Per our conversation I am requesting an extension for filing the Technical Revision report required in the corrective actions section of your March 3, 2017 Inspection Report. We need additional time to complete the necessary changes that were to be submitted by May 22, 2017. We request that the report filing deadline be extended to June 22, 2017 and will commit to filing it as soon as we have it done. Steve O'Brian of Environment, Inc will be preparing the report. He may have questions and is authorized to contact you if needed. His phone number is (303) 423-7297 or e-mail Environment- inc@outdrs.net.

Thank you for your help on this and if you have any questions please call me.

Sincerely

Eric Frei,
Vice President

cc Environment, Inc.
