***RE: Silt Pit, Permit No. M-1981-202-SG, Corrective Action Extension Request Approval***

Dear Mr. Frei:

The Division of Reclamation Mining and Safety (Division) inspected the above mentioned site on March 3, 2017. General compliance with mine plan and revegetation were cited as inspection problems. The corrective actions required that you submit a technical revision to revise both your mining and reclamation plan by the corrective action date. The original due date was May 22, 2017. On June 1, 2017 a formal extension request was received from Eric Frei. The Division is approving the extension as request.

To avoid potential future enforcement actions for non-compliance with State Statutes, Rules and Regulations, and/or conditions specified in your permit for this site, you must submit compliance documentation with the corrective actions specified by ***Thursday, June 22, 2017***.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,
