OBSERVATIONS

This inspection was conducted as part of the Division of Reclamation, Mining and Safety's (Division) normal monitoring program. The operator was not present during the inspection. Photographs are included with this report in order to illustrate some of the conditions observed.

The La Florida Gravel Pit is located approximately 5.5 miles southeast of Antonito and accessed from CR 18. The site is a 112c operation that includes a total of forty permitted acres. The permit was converted to a 112c in May 2007. Pursuant to Rule 4.1.2 (2), a financial warranty is not required for this site.

Adequate mine identification signage was noted at the entrance to the site.

The affected area was marked by fencing that was clearly visible and adequate to delineate the affected area boundary.

At this time, there are approximately nineteen acres disturbed at this site. The pit is approximately 25 feet deep. Nearly all of the highwalls are reduced to 3H:1V slopes. Several materials stockpiles are located on the pit floor. There was no processing equipment or fuels stored at the site.

No problems or violations were noted during this inspection.

Responses to this inspection report should be directed to Dustin Czapla at the Division of Reclamation, Mining and Safety, Grand Junction Field Office, 101 South 3rd Street, Room 301, Grand Junction, Colorado 81501, phone number (970) 243-6299.
