Re: Ignacio Pit, Revision Denial, Permit No. M-1992-054, Technical Revision Denial, Revision No. TR-4

Dear Mr. Fisher:

On June 2, 2017 the Division of Reclamation, Mining and Safety consider your request for the Ignacio Pit, addressing the following:

-Alter reclamation plan allowing for the importation of inert offsite fill in Phase A, and allow a stock pond in Phase D

The Division denied your Technical Revision request. Your Technical Revision was denied because the items outlined in the Notice of Receipt adequacy review dated May 2, 2017 were not submitted by the required compliance date. The items outlined in the notice were to be submitted no later than June 1, 2017.

The technical revision may be resubmitted with all of the items listed in the notice and its associated fee of \$216.00. If you have any questions, please feel free to contact me at the Division's Grand Junction Field Office, by phone at (970)-243-6368 or by email at lucas.west@state.co.us.

Also, records kept by the Division indicate that the Permittee/ Operator Contact is Mr. Todd Fisher of LBCR, LLC, however the Technical Revision was submitted by Crossfire Aggregate Services LLC. No Affidavit of Authority to submit revisions on the Permittee's behalf appears to exist. In accordance with the Act and The Rules the Permittee may submit a signed and notarized Affidavit of Authority, authorizing Crossfire Aggregate Services LLC to be the primary permitting contact as well as make changes to the permit. The affidavit must be signed by the Permittee, Mr. Todd Fisher, and be notarized to allow the change in contact. If you have any questions please feel free to contact me.

Sincerely,

Lucas J. West
