RE: Franklin and Freighters' Friend Shafts; DRMS File No. P-2007-069; Notice of Outstanding Corrective Action

Dear Mr. Fouts,

The above-mentioned site has had one or more problems noted that, according to Division records have not yet been resolved. The following problems were to be resolved on or before April 24, 2017. Listed below are descriptions and corrective actions for the problems. Please resolve the corrective actions and provide evidence of such resolution on or before June 30, 2017.

Please note that if the corrective actions are not properly addressed, and evidence provided to the Division by the date provided above, the listed problems could be escalated to the level of possible violations and would then be referred to the Mined Land Reclamation Board for further action.

Problem/Corrective Action Description:

1. The Prospector has not specified when prospecting activity is expected to end in the 2016 Annual Report as required by Rule 5.6(1)(e). *The Prospector shall notify the Division of the date when prospecting activity is expected to end. In addition, the Prospector shall submit a summary describing the activities which have been completed under the NOI as well as the remaining activities to be completed. This information is required so the Division can make a determination as to whether a modification to the NOI will be required.*

If the problems have already been remedied, please provide evidence of their completion. If you have any questions or concerns, please contact me at (303) 866-3567 x8116

Sincerely,

Michael A. Cunningham
Environmental Protection Specialist
