RE: Rock Pit Mine, File No. M-1985-082 , Technical Revision (TR-1) Adequacy Review

Dear Mr. Baker:

One June 6, 2017 the Division of Reclamation, Mining and Safety (Division) received your Technical Revision request (TR-2) to change the mining plan. The Division is in the process of reviewing the above referenced Technical Revision in order to ensure that it adequately satisfies the requirements of the Colorado Land Reclamation Act (Act) and the associated Mineral Rules and Regulations for the Extraction of Construction Materials (Rules). During review of the material submitted, the Division determined that the following issue(s) of concern shall be adequately addressed before the Technical Revision can be considered for approval. Please provide the following:

1. Please include a map depicting the approximate locations of the scale, scale house and crusher.
2. Will any additional roads need to be created to access the scale and scale house?
3. Will the scale and scale house be removed upon final reclamation? If so please include a description of their dimensions and building materials.
4. Please describe the type crusher to be used. Will cement footers or a pad be necessary?

Please submit your response(s) to the above listed issue(s) **by Monday, June 26, 2017** in order to allow the Division sufficient time for review. A decision due date of July 7, 2017 has been set.

The Division will continue to review your Technical Revision and will contact you if additional information is needed.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell
