***RE: Mid-Continent LST, Permit No. M-1982-121, Extension Request Approval-2***

Dear Mr. Dangler:

On June 20, 2017 the Division of Reclamation Mining and Safety (Division) received a formal request for an extension from Jonathan Ma, of RMR Aggregates (RMR). The extension is regarding mapping and survey requirements of permit boundary and affected lands outlined in the January 17, 2017 letter to RMR from the Division.

The Division is reluctant to give another extension as this has been an ongoing issue that RMR was aware of prior to taking over the permit. Having accurate maps and the permit boundary delineated are basic permit requirements required by the Act and Rules. Resolving issues with the BLM will likely take an extended period of time and the Division must remain focused on its own regulation and requirements.

In an effort to support forward progress by RMR, the Division will grant one final extension. The hope is that this additional time will allow RMR to determine its course moving forward with BLM and DRMS permitting to make better use of RMR resources.

The Division is therefore approving the extension request. To avoid potential future enforcement actions for non-compliance with State Statutes, Rules and Regulations, and/or conditions specified in your permit for this site, RMR must submit compliance documentation with the corrective actions specified by ***Monday, October 02, 2017***.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

***Amy Yeldell***
