Re: Deakins Pit, Permit No. M-2001-060, Technical Revision Approval, Revision No. TR-2

Dear Mr. Baker:

On June 26, 2017 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on June 6, 2017, addressing the following:

Import of inert fill free of metal, plastics, and potentially toxic materials in Northeast section of pit as indicated.

The terms of the Technical Revision No. 2 approved by the Division are hereby incorporated into Permit No. M-2001-060. All other conditions and requirements of Permit No. M-2001-060 remain in full force and effect.

The current liability amount of the Financial Warranty currently held by the Division is \$66,800.00. This is sufficient based on current reclamation liabilities.

If you have any questions, please contact me.

Sincerely,

Division of Reclamation, Mining and Safety
