To: "Cunningham - DNR, Michael" <michaela.cunningham@state.co.us>

Hello Michael - Aggregate's engineers with GEI Consultants prepared the attached response to the Division's corrective action item regarding "Availability of Records" from its February 28 inspection report of Morrison Quarry. The report was addressed to Michelle Ramirez at the Division and I don't see that you were copied. Please let me know if the electronic version of GEI's report is acceptable or if I need to print out and mail a hard copy.

There was another corrective action item contained in the February 28 inspection report regarding "Hydrologic Balance". In response to that item, attached is a photo verifying that erosion gullies and ruts observed below Outfall No. 1 were repaired. Again, please let me know if I need to send a hard copy.

Thanks - Connie

Ms. Ramirez,

I have attached the Revised Geotechnical Addendum to the Morrison Quarry Annual report. The revised report addresses the Availability of Records Problem identified during the 2-28-2017 inspection by Michael Cunningham.

The annual fee was previously submitted by Aggregate Industries – WCR

Please confirm receipt of this email.

Thank you and please let me know if you have any questions or concerns.
