RE: J-Bird Mine, Permit # M-2005-050

Notice of Operations;

The J-Bird Mine is active with partial reclamation of the waste rock stockpile being the primary project. A dozer was brought on site May 16, 2017 to contour the stockpile to a more natural gradient. This part of the work is now complete.

Rimrock would like you to inspect the site prior to any topsoil replacement to be sure that the contours are acceptable to your standards. There is some minor contouring that needs to be done with a small loader if the overall area is acceptable.

I am currently working in Grand Junction and can come into your Offices after 3:45 pm to review your findings. Please contact me at 970-417-1239.

Thank You,

A handwritten signature in black ink, appearing to read "Alan Chiles". The signature is fluid and cursive, with the first name "Alan" and last name "Chiles" clearly distinguishable.
