Re: Golden Wonder Mine, Permit No. M-1978-091-UG, Technical Revision Approval, Revision No. TR-3

Dear Mr. Abraham:

On June 30, 2017 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on May 18, 2017, addressing the following:

- *Minor improvements/enhancements to the existing mine water treatment system. Replacing limestone in passive system with more effective materials and adding a small pre-treatment sump on the edge of the existing mine pad.*

The terms of the Technical Revision No. 3 approved by the Division are hereby incorporated into Permit No. M-1978-091-UG. All other conditions and requirements of Permit No. M-1978-091-UG remain in full force and effect.

The currently held reclamation bond in the amount of \$100,042.00 is adequate to reclaim the site based on the conditions observed during the June 1, 2017 site inspection.
