Jason –

Unfortunately, I have not been able to make much progress on the response package for RN04. Our challenge of the Sage Creek CPDES Permit has taken-up much more of my time than anticipated, and there have been several other items that have become management priorities – I apologize. Given our workload and current priorities, we request that the decision date for the Yoast renewal be extended to August 18th. We appreciate your patience and understanding –

Best regards,

Jerry
