Denver, CO 80203

*RE: Northern Colorado Constructors, Inc. – Bennett Pit – File No. M-2016-085
112c Permit Application, Request for Decision Date Extension*

Dear Mr. Hays,

Northern Colorado Constructors, Inc. has received the Division's second adequacy review comments letter dated July 10, 2017. As a result of the Division's adequacy review comments, additional information will need to be included in the 112c Permit Application for your approval. Because additional information is needed and additional time is needed for your review, Northern Colorado Constructors, Inc. would like to request an extension to the current July 28, 2017 decision date for this 112c Permit Application to August 28, 2017. This extension is required for Northern Colorado Constructors, Inc. to have sufficient time to gather and develop the additional information, and for the Division to review it and finish review of the previous response information we provided to you for the Divisions first adequacy review comments.

Thank you for your consideration of this decision date extension request. Please feel free to contact me with any questions or comments.

Sincerely,

A handwritten signature in blue ink that reads 'J.C. York'.

J.C. York, P.E.
