**Re: Technical Revision Approval, Revision No. TR-06  
Pueblo Cement Plant and Limestone Quarry, Permit No. M-2002-004**

Dear Ms. Nance,

On July 28, 2017 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on March 17, 2017, addressing the following:

*Request to incorporate Groundwater Monitoring Well #6 (MW006)*

The terms of the Technical Revision No. 06 approved by the Division are hereby incorporated into Permit No. M-2002-004. All other conditions and requirements of Permit No. M-2002-004 remain in full force and effect. Associated changes in the performance bond are negligible because there was not a surety reduction involved with the abandonment of four wells as approved in TR-03.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8132**, or by email at [elliott.russell@state.co.us](mailto:elliott.russell@state.co.us).

Sincerely,

Elliott R. Russell  
Environmental Protection Specialist
