**COMMENTS:** Lafarge West Inc., requested full reclamation responsibility release for the Nelson Pit, Permit No. M-1974-070.

According to our records the Nelson Pit (ponds) are augmented under an October 7, 1974 agreement with the Water Users Association of District No. 6. Also, the Applicant obtained well permit no. 69708-F that covers 67.4 acres exposed at the site after December 31, 1980.

The State Engineer's Office has no objection to the request for the full reclamation responsibility release for the Nelson Pit, provided not more than 67.4 acres remain exposed at the site after December 31, 1980.

The applicant may contact the State Engineer's Office with any questions.
