Detailed description of the issue(s) * (?)

Please provide as much detail as possible. It is important to narrow down the issue(s).

It's a huge mining operation, multiple levels hundreds of feet high. Who is mining it, what are they mining and how are they mining and for how long? It just seems to be getting bigger and bigger and It looks like strip mining. I hope reclamation is part of the deal because it's really an eyesore. Thanks
