Jared,

In your inspection report you note there was not indication that the permit area was posted.

Attached is a photo showing that the site was posted to the closest point on the permit area (Scale House) on the date in the affidavit. After our discussion I understood that another posting will be done out at the gate. We'll get you a picture of that too. I look forward to your second adequacy review to get the inspection notes resolved.

I'll mail a hard copy for this photo with the second adequacy response.

Regards,
Steve
