**RE: Green Bros Gravel Pit #2, M-1995-030
Amendment Application No. 1 (AM01), Adequacy Review No. 2, Item Resolved**

Dear Mr. O'Brian,

The Colorado Division of Reclamation, Mining, and Safety (Division) sent you a second adequacy review letter yesterday August 14, 2017 regarding the above referenced site and application. We spoke on the phone today regarding the item discussed in the second adequacy review and you indicated that the Applicant had submitted the information required to satisfy Rule 3.1.5(9) regarding the inert fill activity during the review process for the Conversion (CN01) application in 2012.

Based on this information, the Division found the required inert fill notice and reclamation plan text to satisfy the requirements of Rule 3.1.5(9). Given this, the item identified in the Division's second adequacy review has already been addressed. Based on this finding, the Division will proceed with the approval of the AM01 application. The approval of this application will be sent under a separate cover.

If you have any questions feel free to contact me at (303) 866-3567, extension 8120.

Sincerely,

Jared Ebert
Environmental Protection Specialist III
