Good morning Mr. Liesveld,

I appreciate the update and the Division will extend the five corrective actions cited in the DRMS inspection report dated May 15, 2017. These five items have a corrective action due date of August 30, 2017. The Division will extend the corrective action due date for these items to October 30, 2017.

Feel free to contact me as you prepare your conversion application to a 112c permit should you have any questions.

Have a good day,
