**Re: Occidental Oil Shale, Inc., Logan Wash, Permit No.M-1977-424, Proposed Relining of
Logan Wash Mine Evaporation Pond**

Dear Mr. Smith,

The Division of Reclamation, Mining and Safety (DRMS) has reviewed the plan for the proposed relining of the Logan Wash Mine evaporation pond and approves the proposed plan. DRMS also agrees that this is maintenance of an existing facility and therefore will not require submittal of a technical revision prior to completing the work. DRMS requires that complete documentation of the work that is performed along with a construction completion report to be submitted once the maintenance project is complete.

If you need additional information, please contact me at the Division of Reclamation, Mining and Safety, Grand Junction Field Office, 101 S. 3rd St., Suite 301, Grand Junction, Colorado 81501, telephone no. 970.241.2042.

Sincerely,

Travis Marshall
Environmental Protection Specialist
