Denver, CO 80203

RE: Leyden Pit Corrective Action Extension [#M-1983-139]

Dear Mr. Cunningham:

This letter is requesting an extension on the current corrective action due date of 9/15/17 for the following inspection topics: Availability of Records and Hydrologic Balance. The extension will consist of 60 days, followed by a reevaluation for an additional extension if necessary. This extension is due to delayed coordination between those involved with the mentioned inspection topics.

Thank you,
