Jared,

As requested I am providing a letter from Adams County that formally gives Tessara Water permission to submit a Technical Revision to their permit on our behalf.

Please let me know if you have any questions or concerns regarding this request.

Kurt Carlson, MAS

Regional Park Manager, Parks and Open Space

ADAMS COUNTY, COLORADO

9755 Henderson Road

Brighton, CO 80601

State of Colorado
Division of Reclamation, Mining and Safety
Attn: Jared Ebert
1313 Sherman Street, Room 215
Denver, CO 80203

Jared,

On September 6, 2017 Tara Schutter, PE from Tessara Water, LLC. contacted you on behalf of Adams County, Todd Creek Village Metropolitan District (TCVMD) and South Adams County Water and Sanitation District (SACWSD) in regards to a request for a Technical Revision (TR) relative to M-1982-147 Nyholt Pit (aka Mann).

Adams County Parks and Open Space has partnered with TCVMD and SACWSD through an Intergovernmental Agreement (IGA) in order to make certain improvements to the mining area in preparation for its intended use as water storage as well as the future expansion of the Regional Park and Fairgrounds. Specifically this TR request is for the installation of a *French Drain System* designed to alleviate ground water pressure on the already approved clay liners. The drain will be approximately 300 feet long and installed to a depth approximately 21 feet below grade. It will consist of an eight-inch perforated PVC pipe with clean gravel bedding surrounding the pipe.

This letter is intended to let you know that Schutter, PE from Tessara Water, LLC., acting as a consultant through TCVMD has permission to submit a Technical Revision (TR) on behalf of Adams County Parks and Open Space for the specific improvements listed above at mining site M-1982-147 Nyholt Pit (aka Mann).

If you have any questions or require additional information please let me know.

Thanks,

Kurt Carlson, MAS
Regional Park Manager
