To: "Hays - DNR, Peter (peter.hays@state.co.us)" <peter.hays@state.co.us>

Hi Peter,

I would like to request additional time for us to provide (and the Division to review) the requested additional information associate with the technical revision for the 25th Ave. Site. It's my understanding that technical revisions are competed within a 30-day review period (Sept. 13 for this project) unless a request for additional time is receive.

We should have our response to the TR comments completed within the next few days, and we also want to make sure the Division has time to review the information once it is submitted.

Let me know if a time extension can be granted, or if you need any additional information to process this request.

Thanks for the help on this, and call or email if you would like to talk.

Best regards,

Christie

Hi Peter,

Thanks for your voice message indicating that you have received the Technical Revision to Regular 112 Operation Reclamation Permit # M-2002-020, which will implement erosion protection measures at the City of Greeley's Poudre Ponds Water Storage Facility. Please let me know if you have any questions regarding that Technical Revision or if there is any additional information that I can provide. Can you also let me know when you think the results of that review will be available?

Thanks for the information, and please call or email if you would like to discuss this.

Best regards,

Christie Coleman
