Dear Mr. Fretterd,

On September 15, 2017 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on August 16, 2017, addressing the following:

Addition of a one-acre mining area within the approved 9.9 acre permit boundary.

The terms of the Technical Revision No. 01 approved by the Division are hereby incorporated into Permit No. M-2013-040. All other conditions and requirements of Permit No. M-2013-040 remain in full force and effect. The new required financial warranty amount of \$3,618.00 is less than the current financial warranty amount held, therefore, no additional bond is needed and the revision is final.
