Good morning Jared,

Pete Lien & Sons, Inc. would like to request a 30 day extension to the September 29th deadline for a response to the surety adequacy review of the Rex Quarry (Mine Permit No. M-1977-304). We ran into weather and survey equipment issues in the last month that restricted aerial survey to provide an adequate response to the backfill inquiry. We recently were able to complete this aerial survey and would like to request time to calculate an accurate backfill volume as requested. I appreciate your time and consideration. Please don't hesitate to give me a call should you have any questions. Thank you.

Clinton D. Beck, E.I.T.
