**RE: New Horizon North Mine, Permit No. C-2010-089  
Bench 1 Material – Garvey Property**

Dear Mr. Ferris:

I have spoken with you, previously, about removing Bench 1 material from inside the permit boundary on my property, and relocating it outside of the permit boundary on my property adjacent to the New Horizon North Mine. I would like this activity to occur as the Bench 1 material will provide a considerable benefit to my property adjacent to the mine.

I, Stan Garvey, provide this letter to Elk Ridge, to document my concurrence as the surface landowner for the Bench 1 material to be moved outside of the permit boundary to my adjacent property.

Sincerely,

Stan Garvey
