***RE: Sooner Lucky Strike Mine & Mill, Permit # M-1982-020, 110d Amendment (AM-2)
Application Incomplete***

Mr. Baghdadi:

On September 19, 2017 the Division of Reclamation, Mining and Safety (Division) received your amendment (AM-2) application. A preliminary review of the materials submitted determined that the application fee, in the amount of \$1,725, must be received before the Division can consider the application filed and technical review can begin.

Your application will not be considered filed until the application fee is received. You have sixty (60) days to submit the application fee. If, at the end of the sixty day period, the application has not been determined to be filed with the Office, the Office shall deny the AM-2 application and terminate the application file.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of the application fee.

If you require additional information, or have questions or concerns, please contact me at the Division's Grand Junction Field Office.

Sincerely,

Dustin Czapla
