RE: Silt Pit, Permit No. M-1981-202-SG, Inspection Problem Abated

Dear Mr. Frei:

On March 3, 2017 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. General compliance with mine plan and revegetation were cited as inspection problems. The corrective actions required that you submit a technical revision to revise both your mining and reclamation plan by the corrective action date. An extension request was received and approved changing the corrective action date to June 22, 2017.

On June 26, 2017 the Division received a technical revision request (TR-6). The request addressed all the required compliance issues. TR-6 was approved on August 23, 2017. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell
