Brock,

We have reviewed the reclamation cost estimate for TR-81 and concur with the estimate as provided. Thanks.

Tony

Good morning Brock,

Attached is the Division's RCE associated with the proposed tasks for TR81. The majority of the costs involve transporting the coal stockpile to a certified landfill. Tri-State did not provide information as to the reclamation and disposal of the coal stockpile in the event that the material could no longer be accepted at the Nucla power station. As such, the Division is required to estimate the costs if the work were to be conducted by the Division.

Please let me know if you have any questions or comments.

Thanks.
