Cotopaxi, CO 81223

**Re: Tezak No 2 Pit, Permit No. M-1981-080, Notice of Incomplete 110 to 112 Construction Materials Reclamation Permit Conversion Application Package, CN-1**

Dear Mr. Tezak:

On October 27, 2017, the Division of Reclamation, Mining and Safety received your 110 to 112 Construction Materials Reclamation Permit Conversion Application package for the Tezak No 2 Pit, Permit No. M-1980-080. Preliminary review of the information received determined that the following items must be received before the Division can consider your application as being submitted and technical review can begin:

### **APPLICATION FORM:**

Item 1 (p. 1) The company name is listed simply as “Tezak”. This does not match the existing company name for this 110c permit, nor is there a company named “Tezak” registered with the Colorado Secretary of State. Please correct the company name and resubmit page 1 of the application.

Item 1.1 (p. 1) requires the type of organization be provided. This was left blank in the application. Please type of organization for the company name listed in Item 1 and resubmit page 1 of the application.

### **EXHIBITS:**

EXHIBIT A – Mine Entrance Location: Pursuant to Rule 6.4.1(2) the mine entrance location must be included in Exhibit A. The coordinates for the entrance location should be identical to those provided in the Application Form, Item 10. Most Applicants present the mine entrance location at the beginning of Exhibit A, before describing the affected area. Please resubmit Exhibit A with the mine entrance location included.

EXHIBIT R - Proof of Filing with County Clerk and Recorder (Rule 6.4.18): The “Clerk & Recorder” form submitted has a blank where the County Clerk is apparently intended to sign.

You must submit an affidavit or receipt indicating the date on which the application was placed with the local County Clerk and Recorder.

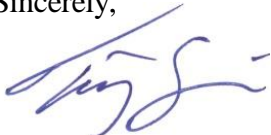

Your application will not be considered submitted until the information listed above is received and found sufficient to begin our review. A decision date will be established 90 days from the date of receipt of all of the requested information. Additionally, if you have already published notice you will need to republish notice, after the Division considers the application submitted. This notice must be published once a week for four (4) consecutive weeks, starting within ten (10) days of the date your application is considered submitted. We will notify you when you should initiate republication of your notice. The final date for receiving comments is the 20th day after the fourth publication or the next regular business day.

You have sixty (60) days from the date of this letter to submit all necessary documents that the Office needs for an application to be considered filed. If, at the end of the sixty day period (**December 31, 2017**), the application has not been determined to be filed with the Office, the Office shall deny the application and terminate the application file.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

If you have any questions, please contact me (303-866-3567 ext. 8169).

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
