**Re: Interoffice Memo
Trapper Mine, C-1981-010
SL-19 Review**

Robin,

I have finished my review of Trapper's bond release application 19 (SL-19). The vegetation was sampled according to the methods described in the permit. Sample adequacy was achieved by the method described in Rule 4.15.11(2)(a). I do not have any questions or comments regarding this application.

If you have any additional questions, please let me know.

Brock
