Re: Termination of Surety Reduction Request (SR-01), Two Rivers, Permit No. M-1998-038

Dear Mr. King,

On August 16, 2017, the Division of Reclamation, Mining and Safety (Division) received your request for surety reduction (SR-01) for the above referenced site. On August 17, 2017, the Division notified you of deficiencies associated with SR-01 in accordance with the requirements of Rule 4.14.1(2). To date, the Division has not received the necessary information to processing the request and, therefore, has terminated SR-01.

At your convenience, please submit a new surety reduction request with all necessary information. The Division recommends also submitting a cover letter with the release request explaining and providing specific details on which reclamation tasks have been completed at the site and which tasks remain. This cover letter will help the Division understand the scope of the future request.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8132**, or by email at elliott.russell@state.co.us.

Sincerely,

Elliott R. Russell
Environmental Protection Specialist
