**Re: Midwestern Farms, Permit No. M-1993-059, Approval of Technical Revision No. 6
(Revision No. TR-6)**

Mr. King:

On November 7, 2017, the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision No. 6 application submitted on November 2, 2017, addressing the following:

Revise reclamation plan to include supply and installation of a 6 ft wide x 2,000 ft long riprap (6 in nominal) blanket on previously approved slopes that will be regraded to correct existing erosion.

The terms of the Technical Revision No. 6 approved by the Division are hereby incorporated into Permit No. M-1993-059. All other conditions and requirements of Permit No. M-1993-059 remain in full force and effect.

The required financial warranty was not recalculated for this revision, as it is currently being recalculated for the surety reduction request (Revision No. SR-1) submitted for this site.

If you have any questions, you may contact me by telephone at (303) 866-3567, ext. 8129, or by email at amy.eschberger@state.co.us.

Sincerely,

Amy Eschberger
