Re: May Day Idaho Mine Complex, File No. M-1981-185, 112d-2 Amendment Application (AM-2) Request for Final Clarifications

Dear Mrs. Glinatsis,

The Division of Reclamation, Mining and Safety (Division) received your response to the 2nd Adequacy Review on November 13, 2017. Division Staff has reviewed your responses to ensure that they adequately satisfy the requirements of the Colorado Mined Land Reclamation Act (Act) and the associated Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metals and Designated Mining Operations (Rules). During the review of the submitted material, the Division requests clarifications on the following matters;

1. Exhibit U- Environmental Protection Plan

- a. In the previously submitted adequacy response dated November 9 2017, a narrative clarifying the construction details of the ore storage pad at the Base of Operations was included. Also included were amended figures C-8 and D-3. While that clarifies the construction details of the base of the ore pad, the secondary containment drawing was also removed from those figures. The Division wishes to clarify that in addition to the liner of the ore storage pad, it must also have secondary containment structures as detailed in the previously submitted figure D-3. Please commit to installing both the 4 inch compacted clay liner as well as the secondary containment berms around the perimeter of the ore storage pad as detailed in the upper left hand corner of the previously submitted figure D-3.
- b. Similarly in the updated figures C-8 and D-3 the fuel storage area with secondary containment has been removed from the plan for the Base of Operations. Please clarify that was the applicants intent, and that no fuel will be stored on site. If this was done in error, please submit a new Figure C-8 and D-3 that includes the

details of the fuel storage area with secondary containment as well as the details of secondary containment for the ore storage pad.

Please submit these clarifications to the above listed issues by **Wednesday November 22, 2017**. If you require additional information, or have questions or concerns, please feel free to contact me at the Division's Grand Junction Field Office, by phone at (970)-243-6368 or by email at lucas.west@state.co.us.

Sincerely,

Lucas West
