**Re: Grisenti Farms Gravel Pit, Permit No. M-2001-005  
Technical Revision Approval, Revision No. TR-02**

Mr. Hesper:

On November 20, 2017 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on November 6, 2017, addressing the following:

*Import clean waste construction material in the mined out portions of the pit and to revise the approved reclamation seed mix [with] one that includes more robust and drought tolerant species.*

The terms of the Technical Revision No. 2 approved by the Division are hereby incorporated into Permit No. M-2001-005. All other conditions and requirements of Permit No. M-2001-005 remain in full force and effect.

The Division has reviewed the change associated with TR-02 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability..

If you have any questions, please contact me (303-866-3567 ext. 8169).

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
