Mr. Tim Haynes  
Climax Molybdenum Company  
P.O. Box 68  
Empire, CO 80436

**Re: Climax Molybdenum Company; Henderson Mine; File No. M-1977-342  
Technical Revision No. 27 (TR-27); 3-Dam Regrade As-Built and Certification Adequacy Review**

Mr. Haynes,

The Division of Reclamation, Mining and Safety (Division/DRMS) has reviewed the content of final drawings, construction certification statement and summary report for the 3-Dam Regrade Project, Technical Revision (TR-27), received on November 14, 2017 and submits the following comments.

1. The construction certification statement provided by the Engineer of Record (AECOM) references Technical Revision No. 28, instead of Technical Revision No. 27. Please provide the Division with a revised construction certification page with the correct technical revision number reference.
2. The Professional Engineer stamp on the construction certification statement provided by the Engineer of Record (AECOM) was not signed or dated by Lisa Yenne, P.E. Please provide the Division a copy of the construction certification statement containing the required professional engineer stamp, signature and date for Technical Revision No. 27.
3. The Professional Engineer stamp on the As-Built Drawings provided by the Engineer of Record (AECOM) were not signed or dated by Lisa Yenne, P.E. Please provide the Division a copy of the As-Built Drawing containing the required professional engineer stamp, signature and date for Technical Revision No. 27.

If you have any questions, please contact me at [peter.hays@state.co.us](mailto:peter.hays@state.co.us) or (303) 866-3567 Ext. 8124.

Sincerely,

Peter S. Hays  
Environmental Protection Specialist

Ec: Wally Erickson; DRMS
