RE: **Blue Mountain Energy, Inc. Deserado Mine, Permit C-1981-018**  
**Third Quarter 2017 Pond Inspection Report Review**  
**Third Quarter 2017 County Road #65 Subsidence Report Review**

Dear Mr. Wanstedt:

### Third Quarter 2017 Pond Inspection Report Review

The Colorado Division of Reclamation, Mining, and Safety (CDRMS) has reviewed and found the above referenced report to be in compliance with the following CDRMS regulation(s):

4.05.9(17) - Examined at least quarterly by a qualified person designated by the operator, for appearance of structural weakness and other hazardous conditions.

4.05.9(17) - A copy of the report shall be submitted to the Division on a quarterly basis.

The third quarter pond inspection report was received by the Division on October 31, 2017. Pond inspections were conducted by Scott Wanstedt of BME on September 28, 2017.

It is noted that discharge was only observed from the B-Seam dewatering pond #5. The Division understands that, based on the information in the report, seepage at the BD2-5 dewatering pond was observed. This area is being monitored to ensure that the integrity of the pond is not compromised.

### Third Quarter 2017 County Road #65 Subsidence Report Review

The Colorado Division of Reclamation, Mining, and Safety (CDRMS) have found the above referenced report to be in compliance with the requirements of C-1981-081 unless noted below.

Longwall mining did not occur under RCR #65 during the quarter. Only superficial surface impacts from prior mining was observed and no significant damage that would warrant repairs. These observations
