RE: CDOT SH 67 Resurfacing Project-Extension Request

Mr. Russell,

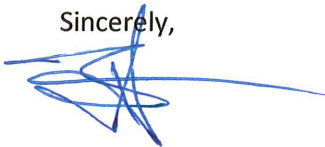

Please accept this letter as PK Enterprises, Inc.'s request for a Division of Reclamation, Mining and Safety determination of any possible issues of extending the duration of time that the CODT contractors have been approved to use the Mule Creek Gravel Pit as their staging area. My approval expires December 31, 2017 and I would like to request an extension through the Teller County Community Service Division's Planning Department to extend my Administrative Use Permit through March 31, 2018.

Please note that the lie slurry operation has been finalized and all the associated equipment has been removed.

I respectfully request that you, upon your review of this letter contact me with your determination regarding extending the time frame of using the Mule Creek Gravel Pit as a staging area for the CDOT SH 67 resurfacing project.

If you should have any questions or concerns regarding this request, please do not hesitate to contact me.

Sincerely,

Bryan Johnson, Executive Vice President
