**Re: Decision Date Extension Approval, 110(1) to 110(2) Conversion Application (CN-01)  
Amazonites, Permit No. M-2014-042**

Dear Mr. Painter,

On December 12, 2017, the Division of Reclamation, Mining and Safety (Division) received your request to extend the decision date for the conversion application (CN-01) to the Amazonites, Permit No. M-2014-042, by 90 days. The current decision date is January 1, 2018 and a 90-day extension would set this for April 1, 2018. Pursuant to Rule 1.4.1(9), the Applicant may request that the Division's review time be extended and the Division's decision date reset, not to exceed 365 days from the date the application was filed. The conversion application was filed on March 10, 2017, therefore, the Division cannot extend the decision date to April 1, 2018.

After speaking with your consultant, the Division has approved a modified extension request. **The Division hereby approves the extension request to March 9, 2018.**
