Dear Amy, CDMRS--

I am writing to let you know I wholeheartedly object to application number M2017-049 because it fails to protect the water resources, animal/wildlife habitats, and the easement rights of several property owners along Little Creek Turkey Road.

I have been a resident of Colorado for almost all of my life, and have seen the devastating affects of such careless and reckless decisions after the fact. (Just look at the 'mines/quarries' and the devastation left behind along the front range west of Colorado Springs). To capitulate to 'big business' and their sole desire for profit, leaves road damage, un-thinkable truck traffic and noise pollution, and severely brings down the property values associated with such a venture. These, coupled with the reputation of Colorado as being a resort/vacation destination and the complete disregard for this hard-earned reputation makes this 'plan' unacceptable in any form.

I completely object and would not support this reckless venture in any form/ploy. The business owner must find another way and not disrupt the lives and well-being of families ALREADY living in the region.

Signed,

Edward Galen Givens III
